### Space at Workshops

ASCH-ERF has always tried to serve as many participants as possible at our meetings. Recently, due to the popularity of our programs, we have experienced some space restraints at some of our Regional Workshops.

As our programs continue to grow, it is becoming more important to register as early as possible for our meetings. By registering early, it helps us to explore every option to welcome as many participants as possible. As regional workshops continue to fill, ASCH will also look at obtaining larger spaces to accommodate even more of you who are seeking further your training in clinical hypnosis.
